PETITION TO INTERVENE

GTE Mobilnet Inc ("GTE"), by its attorneys, hereby petitions to intervene in the above-captioned proceeding pursuant to Section 1.223(a) of the Commission's rules. GTE is a mutually exclusive applicant for the Wisconsin 8, Block B cellular authorization which is at issue in this proceeding. The "Memorandum Opinion and Order and Hearing Designation Order" was not served on GTE by the Commission, nor did the HDO specifically designate GTE as a party-applicant. Because the grant of Telephone and Data System, Inc.'s application would necessarily adversely affect GTE's opportunity to become the successful applicant, GTE has a clear right to intervene and participate in this proceeding.

Attached hereto is a Declaration of Phillip Forbes

attesting to GTE's status as a party. A notice of appearance by undersigned counsel is also being filed simultaneously herewith.

Respectfully submitted,

GTE MOBILNET INC.

Declaration of Philip L. Forbes

I, Philip L. Forbes, Director - Regulatory and Legislative Affairs for GTE Personal Communications Services, hereby declare under penalty of perjury as follows:

GTE Mobilnet Incorporated is an applicant for the Wisconsin 8 Block B cellular authorization (File No. 9866673). See attached Public Notice. If Telephone and Data Systems, Inc.'s application for this market is granted, GTE Mobilnet Incorporated's right to be considered for the award of the Wisconsin 8 authorization would be adversely affected.

**FCC TO HOLD
WIRELINE DOMESTIC PUBLIC CELLULAR TELECOMMUNICATIONS SERVICE
LOTTERY FOR SOUTH DAKOTA & WISCONSIN
WEDNESDAY, MARCH 15, 1989**

The Federal Communications Commission will conduct a lottery to select wireline Domestic Public Cellular Telecommunications Service applications to process in frequency block B in the South Dakota and Wisconsin Rural Service Areas (RSAs) on Wednesday, March 15, 1989 at 10:00 A.M. in Room 856, 1919 M Street, N.W., Washington, D.C. Attached are lists of wireline applications initially accepted for filing in these RSAs. Applications on these lists may, upon further examination, be returned as unacceptable for filing.

Each mutually exclusive cellular application has been assigned a code number. This number appears in the left column of the attachment. One code number will be drawn in each RSA (market).

In order to conduct the lottery in a more efficient manner, the markets have been listed in order of the number of applications received. Winners for each market will be drawn starting with the market having the fewest number of applications. The number of balls in the forced-air blower will be increased to match the number of applications in each market.

Ping-pong balls marked with code numbers uniquely attributable to each of the applications within an RSA will be placed in a forced-air blower. After a thorough mixing, one ball will be forced into a viewing tube. The number on that ball will represent the winning application. This process will be repeated for each RSA. As stated above, one code number will be drawn for each market.

Following the drawing, the Commission will assign a file number to the winning application in each market and will issue a public notice announcing the results of the lottery as required by Report and Order, FCC 84-150, released May 24, 1984. This Report and Order also specified the procedures that will be followed after the lottery to process the applications. In this regard, applicants are reminded that the filing period for Petitions to Deny will not commence until the issuance of a subsequent Public Notice which will announce the tentative selectee for each market.

In the event that the application selected cannot be granted, another lottery will be held for that market and another application will be selected from the remaining applications.

Full market settlements must be filed no later than two business days prior to the lottery date to insure the settled market is withdrawn from the lottery. Corrections to the lists, if any, should be filed within 30 days and should be addressed to:

Federal Communications Commission
Mobile Services Division, Rm. 644

For a more complete discussion of lottery procedures, see FCC INST 1159, 1B, released August 8, 1985. Additional information regarding the applicants for this lottery session may be obtained from Steve Markendorff at 202-653-5560. Procedural questions may be directed to Donna Searcy at 202-632-6410.
